Dear Little League Volunteer,

This message is to let you know of additional changes to the Official Regulations and Playing Rules in the baseball divisions of Little League.

These changes, enacted on Friday by the Little League International Board of Directors, will bring the Regular Season and Tournament Pitching Rules into alignment. As we have heard over the years, this has been a desire of many involved in Little League.

Public notice of these changes will be made later this week. However, we wanted you to know about the changes before they are released to the media.

The text of these changes can be found at the following addresses, in PDF format:
